

BUILD YOUR LUNG FORCE TEAM

SEND RECRUITMENT EMAILS

To recruit people to your team you will need to send recruitment emails. Begin by clicking on the **"My Email"** tab to view our email templates. Select the email **"I Want You To Join My Team"** under the "Recruiting" drop down menu. Using this template will automatically include your team link for people to join. You can also customize these templates to include why you are walking!

Under **"Set Recipients"** you will have the option to send to previous team members and donors or can **"Import Contacts"** from Gmail, Yahoo or another email provider.

The screenshot shows the 'My Email' interface on the American Lung Association website. The top navigation bar includes 'MY HOME', 'MY EMAIL', 'MY PROGRESS', and 'MY PERSONAL PAGE'. The 'MY EMAIL' tab is highlighted with a blue arrow. Below the navigation bar, the 'My Email' section is displayed, featuring a progress bar with steps: 'Configure', 'Compose', 'Set Recipients', and 'Preview & Send'. The 'Set Recipients' step is currently active. Under 'Select Email Template', there are several categories: 'Thank You (2)', 'Recruiting (2)', 'Solicitation (7)', and 'Your Saved Templates (1)'. The 'Recruiting (2)' category is expanded, showing two options: 'I Want You to Join My Team (Preview)' and 'Fundraising Request to Teammates (Preview)'. A blue arrow points to the 'Recruiting (2)' category. To the right, there is a 'Compose' sidebar with options for 'Drafts', 'Sent', and 'Contacts', and social media sharing icons for Facebook, Twitter, and LinkedIn.

WHO SHOULD YOU ASK TO JOIN YOUR TEAM?

People are always looking for ways to get more involved in their community, and family and friends want to help. **ASK everyone you know, to join your Team.** You will be surprised by the response!
