The American Lung Association (ALA) and the AAAAI Foundation Allergic Respiratory Diseases Research Award represents a joint effort to encourage and support research on advancing the understanding of allergic respiratory disease.

The Allergic Respiratory Diseases Research Award is for $75,000 per year. No more than 25% of the requested budget may be used for an awardee’s salary and/or fringe benefits and no more than 30% of the total award budget may be used to fund the purchase of permanent equipment. Grant funds may be used for the salary and fringe benefit costs of personnel other than the Applicant. Fringe benefit costs may only be expended upon the stipulation that they not be obtained from another source.

All awards are subject to availability of funds at the ALA on the start date. Grants are subjected to annual review and may be granted for two years. The second year of support is based on demonstrating satisfactory progress, as well as, the availability of funding from the ALA.

Award recipients will be selected by a review panel composed of American Lung Association and American Academy of Allergy, Asthma and Immunology representatives. Awards are administered by the American Lung Association but the funding of the awards is split equally by the associations.

ELIGIBILITY
Education and Experience
At the time of application, the applicant must hold a doctoral degree, have a primary faculty appointment in an allergy/immunology division/section of an academic institution, be undertaking a project related to allergic respiratory disease, and have completed a training fellowship.

Applicants must be independent, self-directed researchers for whom their institution must provide space and other resources customary for independent investigators. The application must convey the commitment of the institution to the applicant and the proposed research activities. Applicants may be at any level of research experience but priority will be given to applicants at or below the rank of associate professor.

Citizenship
At the time of application, candidates must be United States citizens or foreign nationals holding one of the following visa immigration statuses: permanent resident (Green Card), exchange visitor (J-1), temporary worker in a specialty occupation (H-1B), Canadian or Mexican citizen engaging in professional activities (TN), Australians in
Specialty Occupation (E-3 visa) or temporary worker with extraordinary abilities in the sciences (O-1). At the time of application and throughout the award, an applicant must be employed by a U.S. institution.

APPLICATION DEADLINE
A letter of intent is not required for the Allergic Respiratory Disease Award. All applications must be submitted electronically through proposalCENTRAL. The deadline for submission is December 16, 2015.

PEER REVIEW
Applications deemed eligible for funding will go through a rigorous external peer review process. Factors considered when reviewing applications include:

- Scientific merit, technical feasibility, innovation and relevance to the mission of the ALA and AAAAI Foundation
- Applicant’s education, experience and recommendation letters
- Research environment
- Likelihood that the applicant will engage in an ongoing career in allergic respiratory disease research

Results will be sent to all applicants via email in May 2016 at the earliest. We are unable to respond to telephone or email requests for results.

ALA TERMS AND CONDITIONS

Animal Use
The ALA allows animal use in biomedical research only when no other means of obtaining scientifically sound, valid and useful results are available. Applicants/ awardees must comply with the Public Health Service Policy on Human Care and Use of Laboratory Animals and the National Research Council Guide for the Care and Use of Laboratory Animals to the same extent as each would were the research funded by the National Institutes of Health. A copy of the Institutional Animal Care and Use of Committee (IACUC) approval and/or the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC) accreditation must be provided to the ALA before the start of an award; otherwise the award may be administratively withdrawn. Applicants from institutions that do not have accreditation from the AAALAC, USDA and/or IACUC are not eligible to apply.

Authorized Award Holders
Awards are granted on behalf of specific individuals. Awards cannot be transferred to another individual. If a grantee cannot complete the research, the funds will revert back to the ALA.

Award Allocation
Allergic Respiratory Disease Awards are $75,000 per year. No more than 25% of the requested budget may be used for an awardees salary and/or fringe benefits and no more than 30% of the total award budget may go to fund the purchase of permanent equipment.

Award Payments
Award payments are issued twice a year in July and January by the ALA.

Biohazards
Biohazards are broadly defined to be recombinant and/or infectious and tumor materials that may be deleterious to normal organisms upon controlled exposure. Research involving biohazards requires a copy of the appropriate institutional committee approval to be sent to the ALA before the start of an award; otherwise the award may be administratively withdrawn.

Carry Over or Extensions
Requests for carry over or award extensions require prior approval by the ALA. All requests must be in writing and sent to Research@lung.org. The written requests for carry over and/or extensions must be received by the ALA thirty days prior to the award’s official termination date. When requesting a carry over, the awardee must indicate: the amount, from what budget line and to what budget-line the monies are being applied. In the case of supply or equipment budget, all items must be itemized. Awardees can only request a carry over and/or extension once per award.
Change of Budget
Requests for changes in budget require prior approval by the ALA. All requests must be in writing and sent to Research@lung.org. When requesting a change in budget, the awardee must indicate: the amount, from what budget line and to what budget-line the monies are being transferred. In the case of supply or equipment budget, all items must be itemized.

Change of Status
Transfer of an award from one institution to another requires prior approval by the ALA and is approved on a case to case basis. All requests must be in writing and sent to Research@lung.org. All unexpended funds must be returned to the ALA within 45 days of transfer approval. Once the ALA receives the unexpended funds, they will be reissued to the new institution if the transfer is approved.

Correspondence and Communications
The ALA will correspond directly with the awardee. As such, it is the responsibility of the awardee to ensure institutional personnel are copied on all ALA correspondence. Award recipients are expected to collaborate with the ALA’s marketing and communications team to share the relevance of their project with our constituents.

Equal Employment Opportunity
The ALA will only award individuals working in institutions identified as Equal Opportunity Employers.

Equipment Expenditures
No more than 30% of the total award budget may be used to fund the purchase of permanent equipment. Equipment is defined as an item that costs $500 or more, has a primary function related to the research project, and ordinarily has a usable life expectancy of one year or greater.

Equipment and Supply Purchases
Upon conclusion of the award, equipment and supplies purchased with funds from the award become the property of the institution at which the work was done. Any departure from this clause requires prior written approval from the ALA.

Equipment Repair & Service Contracts
No award shall be used for repair or service contract costs for institutional equipment.

Financial Report
At the conclusion of the award, the ALA requires the completion of a financial disbursement report covering the entire award period and reflecting the award expenditures as originally approved. Any funds used for unauthorized expenditures or unexpended funds must be returned to the ALA, with the disbursement report, within 60 days after the award has terminated. The ALA does not require a financial disbursement report to be completed at the end of each year of support.

Human Subjects and Stem Cells
All research conducted on human subjects and/or human stem cells must comply with the provisions of the United States Department of Health and Human Services 45 C.F.R. pt. 46 to the same extent as each would were the research funded by the National Institutes of Health. Assurance of the Institution Review Board (IRB) approval and/or exemption and approved patient consent forms must be provided to the ALA prior to the start of an award; otherwise the award may be administratively withdrawn.

If the proposed research project involves human subjects, the population sampled shall be inclusive of the general population, of relevance to the scientific question posed, without restriction in regard to gender, race, age, and socioeconomic status. Proposals that intentionally restrict the population sampled must include a compelling scientific rationale for such design.

It is recommended that applicants submit projects to the appropriate human subjects Institutional Review Board at the time of application or before.
Legal Liability
The ALA will not assume responsibility for and the grantee institution will indemnify and hold the ALA harmless from any lawsuit, claim, judgment, damages, awards, or malpractice arising from research or investigations related to an award as a condition of accepting this award.

Other Funding
No other ALA award may be held concurrently with the Allergic Respiratory Disease Award. An investigator that has previously received this award is not eligible for additional support.

Funds shall not be used to duplicate any work supported by other funding agencies. It is the responsibility of the applicant/awardee to notify the ALA of any potential budgetary or scientific overlap. This includes the receipt of a new award during the period of the ALA / AAAAI Foundation award. An assessment of the degree of scientific overlap will be made on an individual basis. In cases of significant scientific overlap the applicant/awardee will have the option to choose between the ALA / AAAAI Foundation award and that of the other organization.

Overhead/Indirect Costs
Overhead or indirect costs are not permitted.

Patent Policy
Inventions and discoveries from research performed during the term of an ALA award will be subject to the current ALA patent policy, as well as, to the patent policies of the institution where the work is performed.

Progress Reports
Periodic progress reports may be requested and must be completed to assist the ALA in shaping future policies with respect to its award program.

Project Support Expenditures
No award shall be used for the purchase of furniture, computers, the construction or renovation of facilities, payment of honoraria, membership dues or tuition, purchase of textbooks or periodicals or payment for secretarial support.

Publications
All publications and/or presentations at scientific conferences and meetings based on research conducted from this award must acknowledge the support of the ALA and AAAAI Foundation. Reprints of abstracts, manuscripts, or other articles that reflect research done after award acceptance must be submitted to the ALA and the AAAAI Foundation.

Publication Expenditures
The maximum amount of funds expendable for publication costs is $1,000 per year. All publication costs must directly relate to the ALA / AAAAI Foundation project.

Renewals
Awards are subjected to annual review and may be granted for two years. The second year of support is based on demonstrating satisfactory progress, as well as, the availability of funding from the ALA and AAAAI Foundation. Awardees are required to complete a Renewal Application for each year the award is subject to renewal.

Tobacco Funded Research and Other Conflicts of Interest
The ALA will not provide research or other funding to investigators who have received direct funding or funding from agencies of the tobacco industry. ALA applicants/awardees must comply with the provisions of the United States Department of Health and Human Services regulations on financial conflicts of interest 42 C.F.R. pt. 50, subpt. F to the same extent as each would were the research funded by the National Institutes of Health.

Travel Expenditures
The maximum amount of funds expendable for travel is $1,000 per year.
PATENTS AND INTELLECTUAL PROPERTY

a. All inventions or intellectual property made with support in whole or in part by research or training grants or awards from the ALA must be reported at the earliest practical time to the Research Division. The grantee institution or individual awardee agrees to notify the ALA immediately of the decision to apply for patents or other legal protection for intellectual property, and to consider seriously and in good faith any comments or objections the ALA may have concerning such applications. The Association agrees to keep all information confidential and to not release any information relating to such inventions, intellectual property or applications. All patenting expenses shall be borne by the grantee institution or individual awardee.

b. Title to any invention or intellectual property shall reside in the grantee institution to the extent that such title is claimed by the institution under its patent policy or procedure and paragraphs c-h shall apply. If a grantee institution has no established patent policy or procedure for administering inventions or intellectual property, or if the institutional patent policy or procedure does not claim rights for the institution or individual inventor, then the ALA shall have the right to determine the disposition of invention or intellectual property rights and paragraphs c-f shall not apply.

c. Distribution of income derived from an invention or intellectual property which might include equity disposition shall be according to the policies of the grantee institution, although the ALA would expect to participate in income derived from the invention or intellectual property to the extent and at a rate of remuneration determined by mutual agreement between the grantee institution and the ALA no later than six months after first receipt of income. Such agreement shall be guided by the principle that the Association's proportion of sharing in the income shall be reasonably related to the Association's proportion of support for the invention or intellectual property.

d. If any invention or intellectual property is made with the joint support of the ALA and other organizations, it is expected that income distribution shall be in accordance with the provisions of the policy. Should an exception be taken to this provision, the grantee institution, the ALA, and other sponsoring agencies will confer to reach a mutually satisfactory disposition of invention or intellectual property rights.

e. No patent, patent application or other type of protection shall be abandoned without first notifying the Research Division. At such time, the grantee institution and individual awardee shall give the ALA the opportunity to take title to the invention or other intellectual property.

f. The grantee institution shall agree that when it licenses any invention or intellectual property it will obligate the licensee as follows: The licensee agrees to exert its best efforts to commercialize or cause to be commercialized the invention or intellectual property as rapidly as practical, consistent with sound and reasonable business practices and judgment. In the event that the licensee has failed to commercialize the invention or intellectual property within the number of years determined to be reasonable for the invention or intellectual property, the grantee institution upon conferring with the Association shall have the right to convert an exclusive license to a non-exclusive license or to terminate a non-exclusive license. If the licensee or grantee institution has an ongoing and active research, development, manufacturing, marketing or licensing program as appropriately directed toward the production and sale of the invention or intellectual property, the same would be deemed to be sufficient evidence that the licensee or grantee institution has commercialized the invention or intellectual property.

g. The ALA reserves the right to public acknowledgement for inventions or intellectual property resulting from support by the Association; however, the ALA name and logo may not be used in association with an invention or intellectual property without prior approval of the Association.

h. The ALA may have use of inventions or intellectual properties without payment of royalties or fees, but solely for use within the Association for intramural purposes and not for any of its grantee institutions or individual awardees.
