

Team Captain Goal Setting Worksheet

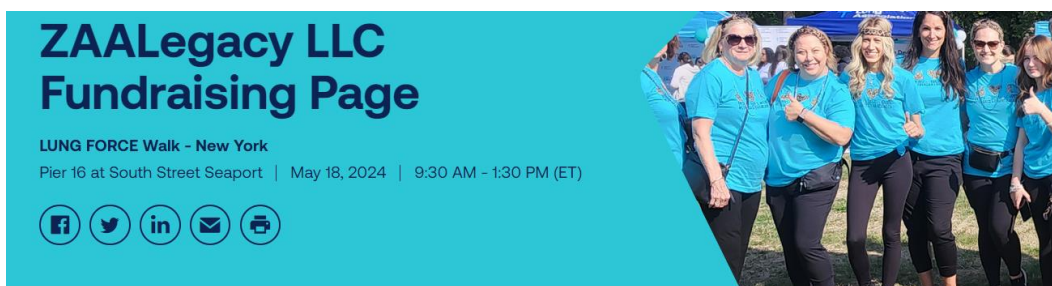

While there is no minimum number of team members required, the average LUNG FORCE Walk team is made up of 10 people. You can sign up colleagues, a support group, neighbors, family and friends and others.

Before you start recruiting for your team, decide what you want your team to accomplish *and how* by setting your team goals:

-  Our team seeks to raise \$_____.
-  Our team aims to recruit _____# of walkers.
-  Each walker will strive to raise \$_____.

For example, to create a \$2,500 team, recruit 9 members, plus you, who each raise \$250.

Once you create your goal, make sure it's reflected on your Team Page on your Walk website and communicated to your members. Need to change your goal? Contact your LUNG FORCE Walk Manager.
